"MRO Middle East has provided a fantastic platform to see the positive trends happening within our industry."

Husham Osman

Technical Director,
Royal Jet

New for 2021: Enhanced Go Live! Theater

The Go Live! Theater was a new addition to the event, delivering expert content across the two days, all directly on the show floor and free for all attendees.

26 industry leading speakers from airlines, MROs, OEMs, lessors, consultancies and suppliers delivered their expertise on the regional MRO sector.

During the two day agenda, 4 key themes were discussed during the sessions:

1. Increasing Passenger Confidence

How airlines are restoring passenger confidence, cross-market initiatives for the region and what the implications are for stakeholders.

2. Improving Sustainability and Resilience

How MRO shops can stay competitive, understand the initiatives in place to meet the climate change targets for the industry and examples of how market stakeholders worked together through a difficult 2020/2021.

3. Accelerating Digitalisation

How technology and digitalisation can help get us to a new normal and help the aftermarket with revamping operations.

4. Streamlining and Efficiency for Long Term Survival

Tackling the workforce challenges and expediting professional growth.
